Fees

Most of the time, our services are completely free. That's because instead of being paid by you, we receive revenue from our product suppliers like banks and insurers.

However, for Lending, we may charge a fee for the financial advice provided to you where you restructure or repay your loan within 27 months of inception. Whether a fee will be charged and the manner in which it will be charged will be advised when the advice is provided to you. This fee will be payable by the 20th of the month after the loan has been restructured or repaid.

We may also charge you a one-off fee if you request that I provide services in relation to a product or service and we do not receive a commission for. Any such fee would be agreed and authorised by you in writing before we complete the services. This may arise in the rare event that you request that we provide services in relation to either a product that is offered by a provider that we do not hold an accreditation with, or a product that is outside our usual arrangements with our product providers.

Or, if you cancel your insurance within 24 months of its start date, the insurer will reclaim any commission paid to us. If you do so without allowing us the chance to help you review your options, we will charge a fee based on the time spent getting the insurance approved and implemented. The hourly rate for this service is \$350 +GST, with a maximum clawback charge of \$3,000 +GST.

How we manage conflicts of interest and incentives?

To ensure that we prioritise your interests above my own, we follow an advice process that ensures recommendations are made on the basis of your individual needs and circumstances.
